Spain	110.54	- 2.36

Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

A disastrous start to New Year processing saw quite a few thousand slaughter pigs rolled into this trading week. Covid infections among factory staff are rife and this has cut out swathes of processing capacity. Therefore, number allocations were pretty dire and the backlog continues to grow. The latest SPP recorded a large fall and the average weight was the highest on record at 94.12kgs. Contract prices eased in response to the fall in SPP. Fresh meat trade was very poor - not unusual for January, and prices eased back here as well. The cull sow market was limited by poor export sales so numbers sold was minimal. There was little solace in European markets either and price quotes in sterling fell as the Euro ended the week down 1.78p at 83.43p.

Weaner Marketing Summary

w/c 02/01/22

The market remains badly disrupted by the backlog in the slaughter market. This unfortunately resonates back down to the weaner producer, with many units now overstocked. There was insufficient data for the AHDB to issue any prices.
