### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week	
	<p>There was little change with market fundamentals this week – an oversupply of pigs, rapidly becoming out of spec, and a processing sector bereft of any ideas or suggestions to mitigate the crisis. Covid infections continued to plague staffing levels, but it is hoped that these problems will wane, and staff numbers soon recover. The latest SPP saw another highest weight recorded at 95.10 kgs, giving credence to the returns we see on a daily basis, with many batches now averaging well north of 100kgs. The fresh meat market was little changed, with twin pressures of cheap imports and “January” downturn in demand. Sows stood on but numbers sold was still limited. In Europe , Denmark suffered a 4 eurocent reverse, and the Euro ended the week little changed, up 0.08p at 83.51p.3p.</p>

### Weaner Marketing Summary

w/c 09/01/22	
	<p>There is little to no free market trade now, and even regular contracted supplies are badly disrupted by the backlog in the slaughter market. Weaner producers are being forced to be inventive to adapt to this new reality. The AHDB issued a 7kg weighted average weaner price of £32.86 but no 30kg store price.</p>
