Holland	91.28	- 3.04
Spain	116.48	+ 5.19

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
The market was little changed, remaining hamstrung by factory inefficiency. Slaughter weights continue to run at historically high levels, and producers are having to be extremely inventive to cope with increased stocking rates. Slaughter number allocations remain shy of what's required, so pigs continue to be backed up. Prices eased back again with the latest SPP down a penny and the SPP sample weight another record at 95.80 kgs. The fresh meat market showed little improvement with trade being described by one outlet as dire. The cull sow market remained hampered with processor issues in Germany, and numbers required were curtailed as a result. European markets saw Spain improve (+3.9c) but Holland fell back again (-5.5c). Price quotes in sterling were enhanced as the Euro increased sharply, ending the week up 1.41p at 84.59p.

### Weaner Marketing Summary

w/c 30/01/22
Movements remained limited, with many arrangements having to flex to cope with the logjam in the slaughter market. The 7kg weighted average weaner price issued by the AHDB fell £1.06 to £32.72 but there was insufficient data to calculate a 30kg store price.
