Holland	90.59	- 0.69
Spain	118.88	+ 2.40

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
<p>Factory reliability continued to try the patience of producers and hauliers alike this week. Numerous issues caused much downtime, some of which was clawed back through Saturday kills, but the upshot was lost production. The DEFRA summit on Thursday saw encouraging talks of supply chain fairness, and this will be most welcome, but it did not announce any short-term relief to the issues we are having to deal with on farm. Average weights continue to be running at record levels, and farm infrastructure is being severely tested. Financial pressures are increasingly coming to the fore, with many producers concerned about funding future feed deliveries. The market showed little sign of improvement, with demand being described as fickle. The cull sow market continued to be limited but prices stood on. Prices in Europe saw Spain improve again (+3.9c) and France up 2.4c – maybe the first encouraging signs that European markets have turned the corner. Price quotes in sterling were compromised by a weaker Euro that ended the week down 0.65p at 83.96p.</p>

### Weaner Marketing Summary

w/c 06/02/22
<p>The weaner market remains badly compromised by the slaughter backlog. Unit turnrounds are delayed and the ensuing backup on breeding farms are causing some major headaches. There was insufficient data For the AHDB to calculate any weaner or store pig prices.</p>
