Holland	90.02	- 0.57
Spain	122.47	+ 3.59

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
Another week completed which underachieved against the original plan. Processing continued to limp along, hampered by understaffing and unreliable machinery. There were indications of better ambition from one or two outlets, but their ability to process was compromised by poor factory reliability. Prices were enhanced by a near penny rise in the SPP – lighter, leaner pigs in the sample leading to a higher % within spec. Supply remained high and our average weights are climbing ever higher. Production costs continue to increase with another rise in feed raw materials, which in turn puts more financial burden on producers. Sow sales improved with better continental demand and prices increased a welcome 3p. European markets look to have turned a corner with good lifts Germany, Spain and Belgium. The Euro continued to weaken and ended the week down 0.54p at 83.42p.

### Weaner Marketing Summary

w/c 13/02/22
The weaner market remains badly compromised by the slaughter backlog. Unit turnrounds are delayed and the ensuing backup on breeding farms are causing some major headaches. There was insufficient data For the AHDB to calculate any weaner or store pig prices.
