Holland	106.20	+ 7.30
Spain	131.57	+ 4.37

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
<p>Factory throughputs continued to fall shy of planned numbers, and one major lost a whole day leading to many hundreds being rolled into this trading week. Number allocations remain below what is required, and slaughter weights continue to rise. Production costs are a major worry, with many producers now exposed to vastly inflated feed prices. Prices continued to languish with little impetus. Demand was steady in the fresh meat market, albeit import quotes were a lot dearer due to the rapid rise in European prices. This led to an astonishing double digit rise in cull sows. The driver seems to be born of the Ukraine crisis and disruption to protein supplies – especially chicken, of which Ukraine was a major exporter. The main movers were Belgium +22 eurocents and Germany +18, and Spain, Holland and France all seeing good increases. The Euro weakened against sterling to its lowest level in 5 and a half years to end the week down 1.35p at 82.39p.</p>

### Weaner Marketing Summary

w/c 27/02/22
<p>There is little change in the weaner market with minimal demand outside contract arrangements. With little feed cover, the prospects of fatteners raising their heads above the parapet are slim. There was insufficient data for the AHDB to calculate any weaner or store pig prices.</p>
