Holland	139.53	- 4.09
Spain	164.74	- 0.89

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week 10 <sup>th</sup> April
<p>The week was dominated by pricing, and how rapidly the market can breach the £2/ kg mark. Discussions were given impetus by the largest single week rise in the SPP – up 7.18p at 157.73p. Most processors now seem to acknowledge the need for rapid increases but seem to be hamstrung by apathy in some retail quarters. There needs to be a realisation throughout the supply chain that prices need to increase NOW, or the future marketplace scenario will be very different. With regard to pig movements, the Easter holiday disruption was minimal, with most majors working full weeks. Prices appreciated again helped by the aforementioned SPP rise. The fresh meat market was quieter and hoped that a warm Bank Holiday weekend would maybe encourage the first barbecues of the year. The cull sow market was limited by the Easter break, and not helped by logistic congestion at the ports. European prices stood on, with the exception of Holland, but all quotes were compromised by a weaker Euro that ended the week down 0.44p at 82.91p.</p>

### Weaner Marketing Summary

w/c 10/04/22
<p>The market is improving slowly, as the slaughter backlog eases and unit turnrounds are getting back to plan. Spot weaners are still a struggle however, as the feed costs spiral and discourage any but the very brave from participating. There was insufficient data for the AHDB to formulate any prices.</p>
