Spain	183.38	- 2.31

Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
<p>While supply continues to tighten, demand faltered again with poor sales being blamed. Although we are in a traditionally quieter sales period, it is still frustrating that demand is seemingly so poor. In reality, some of the blame can be pointed at the low prices in Europe putting a brake on our trade by its continual source of cheap imports. Indeed, many of our fresh meat customers are experiencing this, and it is undercutting our ability to push prices. Most of these imports are entering the country unchecked, and considering the latest spread of ASF in Germany, we echo the calls by NPA and others that the government must improve our border controls. Returning to this week, prices improved, helped by another good increase in the SPP – up 2.49p at 188.88p. Cull sows eased back a penny however due to currency. European prices were generally stand on except for France that added another 5 eurocents. Price quotes in sterling were lower however, due to the fall in currency.</p>

Weaner Marketing Summary

w/c 03/07/22
<p>There was minimal supply outside regular arrangements, and fatteners continued to be very wary due to uncertainty in future slaughter prices. The AHDB announced a 30kg store pig price at £56.70 but there was insufficient data to formulate a 7kg weaner price.</p>
