Spain	184.97	+ 0.61
Slaughter Pig Marketing Summary		(Ref Weekly Tribune)

Slaughter Pig Marketing Summary

This week

Processor throughputs continued to falter due to a combination of staff shortages, breakdowns and flat sales. Whilst trade at this time of year tends to be fickle, number allocations were shy of what was needed. Pig growth was still curtailed by the recent hot weather, but supplies remained ample for demand. Price contributions stood on, but other market fundamentals improved again, thereby giving a positive boost to prices. Fresh meat market demand was a touch steadier, reflecting poor high street sales. The cull sow market was similar pricewise, with volumes running at expected levels for this time of year. In Europe, France continued to be an outlier, adding another 4 eurocents, while the rest of the quoted countries stood on. Prices in sterling were enhanced by a stronger Euro that ended the week up 0.28p at 84.27p.

Weaner Marketing Summary

w/c 31/07/22 Fatteners remained withdrawn from the market, and while harvest pressures helped ease some of the wheat and barley quotes, there was little change in outlook. There was insufficient data for the AHDB to formulate any prices.
