| Holland | 158.17 | +1.63 |
| Spain | 193.70 | -0.26 |

## Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

## This week

There was little to no improvement in demand, and a change in work practice at one processor led to a temporary reduction in numbers. Supplies were ample for the trade and average weights continue to climb as a result of excellent growing conditions. Prices were stubbornly similar with the SPP easing 0.46 p due to bigger, fatter pigs in the sample. Fresh meat trade was quieter, with hints of competitive imports hitting the market again. Cull sows eased back 3p on the back of poorer continental trade. Poor demand was the precursor for large falls in some European markets - Germany and Belgium down 10 eurocents and France down 7. These falls were tempered in sterling terms, however, by a stronger Euro that ended the week up 0.91p at 87.73p.

## Weaner Marketing Summary

## w/c 16/10/22

Demand remained paltry, with little to no interest from fatteners. The stagnant state of the finished market gives little economic sense for fatteners to participate. There was insufficient data for the AHDB to formulate any quotes.
