### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week 30/10/22
<p>Shorter days ahead as shorter demand than supply continues against expectations, given the time of year with the festive season starting to feature on the horizon. Buyers historically had a plan to pull stock forward, currently the plan seems to be working from week to week with few signs of any additions emerging currently! Prices across the board remain relatively unchanged this week other than a fractional positive adjustment of +0.34 in pricing that includes an element of SPP. The German market prices stood on this week, after the previous weeks 10 eurocent fall. Nothing has indicated demand has improved on the other side of the water either again, this reflected slightly as our sow market dropped 1p as a Euro is now at 85.99p -0.91 v the previous week.</p>

### Weaner Marketing Summary

w/c 30/10/22
<p>Weaner and store markets continue to see little change again this week, with an insignificant number moved outside contractual agreements or for the AHDB data sample to be produced. However, we do have some interest if anyone has accommodation and is looking to B&amp;B pigs?</p>
