### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
<p>The market remained static pricewise, but plant reliability has been shocking. Numerous breakdowns and staffing issues caused downtime at many plants, trying the patience of producers and hauliers alike. Demand remained flat with no signs of any improvement from promotional activity nor any pull forward for Christmas. The worry is that, with only 6 full weeks left until the Festive break, there is little opportunity to get on top of numbers. The fresh meat market remained quiet with little spark, and anecdotal evidence suggesting strong competition from cheap imports. Cull sows bucked the trend, up 1p due to favourable currency. In Europe, French and Spanish markets continued to fall, but were tempered overall in sterling terms by a stronger Euro that ended the week up 1.36p at 87.48p.</p>

### Weaner Marketing Summary

w/c 30/10/22
<p>The market was very quiet, with only contracted supplies being moved. The parlous state of the finished market gives fatteners little reason to participate. There was insufficient data for the AHDB to formulate any quotes.</p>
