Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

| This week |
|---|
| The week was notable for continued inefficient processing marring delivery plans, which caused pigs to be rolled into this trading week. Supplies remained ample for the poor demand, which is frustrating as we run towards the Christmas break. Prices were stand on, with little desire from processors to increase contributions. This leaves a large gap to the latest cost of production quoted at 232p. The fresh meat market remained quiet with many commenting on continued import pressure. The cull sow market stood on, but numbers are starting to tighten. European markets were similar and the Euro ended the week at 87.53p up 0.05p. |

Weaner Marketing Summary

| w/c 06/11/22 |
|---|
| There is little trade outside contracted supplies being moved. The parlous state of the finished market gives fatteners little reason to participate. There was insufficient data for the AHDB to formulate any quotes. |
