Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

Trading for the last full week before the Christmas short weeks, there was little festive cheer from the processing sector. Meanwhile, pig supply gets ever tighter, but most processors still seem deaf to this fact. Prices were affected by a fall in the SPP which fell sub 200p for the first time in 12 weeks. Processor contributions remained stagnant, with one exception. The fresh meat market was in more festive mood with some appreciation in prices. Cull sows continued to improve, up another 4p on the back of improved continental demand. European markets were similar with only Holland showing any improvement, but prices in sterling were enhanced slightly by a small rise in the Euro, that ended the week up 0.10p at 85.88p.

Weaner Marketing Summary

w/c 04/12/22

There was little interest in any supplies outside contractual arrangements. Fatteners are noticeably absent due to the parlous state of the finished market. There was insufficient data for the AHDB to formulate any quotes.
