Ireland	200.5	8.03
Holland	188.81	1.24
Spain	230.67	3.46

Weaner Pig Marketing Summary

The interest for weaners and stores market is still generating a lot of interest, but supply remains very tight.

Spot Weaner Prices (£/pig ex.farm)	w/c 26.03.23	Previous week
7kg Pig	£50.00- £55.00	£50.00- £55.00

As pig supply continues to drop week on week and the low point of this not expected until mid-May some of the processors are now realising they will have to increase the prices paid to keep the supply they currently have, let alone try and increase their volume!

With clean pig slaughtering's down by 17% on February 2022 figures. Add the dead weight lower by around the 6kg mark from 95kg to 89kg to the mix, this only adds to the scramble for slaughter pig supply. One major processor has put another 6.5p into their input price adding to over 4p/kg in the Q price. The German price rising 5 Eurocent makes European pig meat even less attractive, if available! The cull sow market gained another 4p/kg into the price, 59p/kg higher than this time last year.
