Congratulations to all the Pig Award winners. Sadly, TVC did not win the allied category, congratulations to CEVA and all the good work Eduardo does for the Pig Industry. We were proud to see some of our members step up to collect awards and were pleased to eat pork at the pig awards from a members farm. A good atmosphere and night had by all. Sadly a few haulier issues and factory hick ups caused a few pigs to be moved down the week last week, but larger kills for Christmas seem to be clearing these up. Pigs seem to be growing well in what has been a wet but mild start to the winter, highlighted by good finishing weights still coming through. Germany stood on again as did a lot of Europe but due to currency in sterling the European average still came back. The sow price stood on, but some processors still felt the need to take money out due to the disparity between UK and EU prices. SPP only eased 0.09 but the sample size was the biggest since last December, with the weight staying in the 90kg DW which it hasn't been until recently since October 2023. Please be vigilant as there are rumblings that activists are/have been on units. Please talk to NPA if you suspect anything suspicious happening on your unit.
