Weaner Pig Marketing Summary

Consistent numbers of weaners and stores continue to move between regular contract sellers and buyers, spot weaners and stores would find a willing home should any be available, please get in touch.

Spot Weaner Prices (£/pig ex. farm)	w/c 18.02.24	Previous week
7kg Pig	£50.00- £55.00	£50.00- £55.00

The SPP took a small rise of 0.07p/kg as the trade seems to be evenly balanced between supply and demand. Looking at our forecasting from weaning figures we can see the supply begin to tighten up in the coming weeks, as is evident with talking to producers who report infertility issues along with various health problems. Add to this the dreadful conditions the outside producers are facing and have been for a while, we can see supply being hampered even further.

EU prices have stood on this week, but with the rise over the past two weeks this seems to suggest numbers tightening over the water as well.

Speaking to the sow buyers on Friday, they suggest the same story as demand for the cull sows pick up, evident with the 13p/kg rise over the past few weeks.

The cull sow price stood on this week, in line with the German price.
