## Weaner Pig Marketing Summary

Weaner market– In addition to regular contract transactions, currently we're being offered a few more 8kg weaners, some of which are looking to find homes, e.g. we currently have a number of piglets from good sources available. It's worth giving TVC a call if you have some space and would like to discuss purchasing weaners.

Chill in the air has been a theme of late, still waiting for some real BBQ sunshine! However, pig numbers do remain tighter across the industry, a situation set to continue, and the upcoming short May day bank holiday will almost certainly have little impact on business as usual, with all pigs offered for sale much like this week, we feel sure will find homes!

Prices remain in the main stable, although the SPP has just nudged up 0.39p being our only real positive price lift for another week. It seems very little price change has also been reflected across Europe, Germany also continues a price pause, now on the 8th week since the last 5cent price jump. So, sow prices here also remain the same for this week with any small fluctuations of late here and in Europe are related to currency.
