Everyone was pleased to see the sunshine this week, it definitely makes everyone feel better and has really brought the crops on. It would seem Spring has finally arrived! The fresh meat market was livelier this week and many a BBQ was lit over the weekend.

Sows stood on which reflected the European market although in Sterling European prices were up slightly due to exchange. Pigs seem to be growing well so weight is being maintained.

The SPP sample for the first quarter of 2024 was on average 1200 pigs per week down on 2023 but pigs this year are 1.26kg heavier and slightly fatter than the same period in 2023!

All focus now is on the Pig and Poultry Fair at the new venue, The NEC in Birmingham this week. There will be representatives from TVC there on both Wednesday and Thursday and we look forward to seeing you there.
