The SPP continued to take a downward trend reducing by 0.30p/kg making the price 206.23p/kg.

The week was again blighted by factory reliability causing some issues with loads moved further down the week and the odd one or two rolled into the following week. Add to this the colder weather bringing snow and ice to add to the difficulties in the week.

Demand is stronger, but this is matched with a surge in pigs being offered with little reduction in the average weight at 91.42kg, a tad lighter but not light enough for the time of year, maybe the cold will help with this.

Two of the processors took money out of their contribution price and combined with the drop on the SPP will continue to reduce the price in the coming weeks. Cull sows stood on and weaner and store pigs were moving in the usual areas.

The National Pig Awards were well attended and congratulations to all the winners, with undoubtedly some sore heads the following morning.
