Spain	115.08	- 4.02

Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

While the news on Friday regarding visas for butchers and private aid to storage was very welcome, it didn't affect the trading. Number allocations were woefully short again and the backlog continues to grow. Pig weights are getting heavier by the day and most farms are into contingency planning. Prices were similar, helped by the bounce back in this week's SPP whose sample was not sullied by any cheap, minimally butchered pigs. The fresh meat market continued to struggle against cheap imports and prices eased as a result. Cull sows stood on, but at a very low rate, enabling our exporters to get a foothold in a dire marketplace. European markets generally stood on with the exception of Spain that fell another 4 eurocents.. Prices in sterling were compromised by a weaker Euro that ended the week down 0.53p at 84.36p.

Weaner Marketing Summary

w/c 10/10/21

Weaner and store movements continue to be heavily constrained by the backlog in the slaughter market. Many yards are still full and now out of sequence with refill plans. There were no prices issued by the AHDB.
