Holland	97.96	- 3.02
Spain	119.10	- 4.41

Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

There was no improvement this week with the total places offered actually less than the previous week. Processors are becoming increasingly entrenched in their view on number allocations, which are wholly inadequate, and the backlog just gets bigger. Couple this with unreliable factories and you have a bleak outlook. Conditions on farm continue to deteriorate with overweight pigs now occupying valuable fattening space. Farmers have the reputation of being resilient but these pressures are now becoming extreme. Please can we, as an industry, rally round each other – the attached link also gives some useful numbers www.npa-uk.org.uk/If_you_are_struggling_talk_to_someone.html. This week, contract prices continued to fall, due mostly to the record fall in the SPP. This fall was partly accounted for by some pigs entering the sample that were killed and minimally butchered to face a low Asian price. Cull sows continued to trend lower and the European markets seem to be in freefall. Prices in sterling were compromised by a weaker Euro that ended the week down 0.76p at 84.89p.

Weaner Marketing Summary

w/c 03/10/21

Weaner and store movements continue to be heavily constrained by the backlog in the slaughter market. Many yards are still full and now out of sequence with refill plans. There were no prices issued by the AHDB.
