Slaughter Pig Marketing Summary

This week

There is little optimism to report this week. A major breakdown added to the woes with pigs rolled down and out of the week. Processor allocations were inadequate and many pigs remained unmoved. Weekly contract contributions eased a penny. The SPP fell 2.31p to 156.39, its largest weekly fall since January 2016, and the sample size dipped below 70,000 head at 68,149. The fresh meat market continued to be challenged by cheap imports, and while true porkers and cutters were in short supply, prices eased by 1p to 2p. The cull sow market stood on pricewise, bolstered by a welcome stability in the German market. Volumes remained high, reflecting the current trend in herd contractions.. European markets saw Holland fall 4 eurocents bringing it closer in line to its near neighbours, and Spain fell the same as it faced reduced export demand. Price quotes in sterling were curtailed further by a weaker Euro that ended the week down 0.58p at 85.26p.

Weaner Marketing Summary

w/c 05/09/21

There are now severe restrictions on movements caused by the backlog in slaughtering. Many yards are still full and now out of sequence with refill plans. The AHDB issued a quote for a 7kg weaner at £37.68 but there was no quote for a 30kg store pig.
