### Slaughter Pig Marketing Summary

#### This week

Challenges continued this week with the "pingdemic" caused by the NHS Covid App adding to staffing issues among processors and hauliers alike. The upshot was downtime at many processors with one major reducing their kill substantially. Supplies backlogged just at the wrong time with a heatwave forecasted. It is hoped the either he sensitivity of the App is tempered or a reassessment of length of isolation announced, or this industry, like many others is going to quickly deteriorate. Prices improved with a welcome lift in the SPP and other market quotes. The fresh meat market saw steady demand and prices were similar. The cull sow market took a turn downwards on the back of a poorer German market and prices fell 4p. European prices were a sea of red, with only Belgium and Ireland unaffected. Prices quotes in sterling were compromised further by a weaker Euro that ended the week down 0.46p at 85.30p.

### Weaner Marketing Summary

#### w/c 11/07/21

Supplies of both 7kgs weaners and 30kg stores were ample but there was minimal interest for any batches outside contract arrangements. Prices remained subdued. There were no price quotes issued from the AHDB.
