Holland	96.85	- 1.82
Spain	111.20	- 2.09

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

#### This week

The merry-go-round continued this week with little ambition from any of the processors to increase number allocations. Factory reliability continued to be questionable, and staffing remains an issue. Lower contract contributions and a large fall in the SPP combined to force prices lower. Space on farm is at a premium and slaughter weights continue to breach new highs. Extra slaughter space can solve this tedious circle, and we are open to any ideas, because without significant change soon, on farm slaughter becomes more realistic. In other news, the cull sow market was curtailed due to a Covid outbreak at one of the major continental processors. Numbers of culls were limited with many having to be rolled. European markets were little changed, but prices in sterling were substantially lower due a weaker Euro that ended the week down 1.57p at 83.93p – its lowest level since February 2020.

### Weaner Marketing Summary

#### w/c 14/11/21

The market remains extremely subdued and badly disrupted as the backlog in the slaughter market affects unit restocks. There is little or no spot market and there were no prices issued by the AHDB.
