Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

Number allocations continued to be woefully inadequate, not helped by unwelcome maintenance at one plant taking out a day and a half processing. Contract commitments mean little now to most processors and their views are becoming increasingly entrenched. The backlog increases and slaughter weights continue to rise, with records being breached again. Most contract contributions stood on but the SPP saw another large fall, down 4.66p, due to more minimally butchered pigs that were destined for export being captured in the sample. The fresh meat market continued to be challenged by cheap exports and prices eased as a result. Cull sows stood on again, but volumes required were limited. European prices fell further in Ireland and Spain, and the Euro was virtually unchanged at 84.37p.

Weaner Marketing Summary

w/c 17/10/21

The weaner and store market is now limited to contracted supplies, with little to no interest outside these arrangements. Some producers are now struggling to accommodate stock, but fatteners cannot be tempted at any price. The AHDB issued a 7kg weighted average weaner price at £34.78 but no 30kg price.
