Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week
<p>No respite from the volumes of pigs being left behind by a number of processors still bereft of staff and unable to process the normal volumes coupled to yet more plant failures which lead to pigs being stopped and rolled to the following weeks which is aggravating an already exasperated situation. The industry is now desperate for some leadership which needs to result in getting more pigs slaughtered somehow, somewhere, now!</p> <p>Prices are easing with most processors taking money out of their contributions. The SPP continued to erode by a further 2.06p, leaving it at 154.31p, and the SPP sample recorded the highest weight ever at 91.17kgs. Sows also were in abundance and with the German market falling yet again the pressure was on which resulted in most sows down 6p. France and Spain lost ground again but are still top of the European pricing tables. Price quotes in sterling were enhanced slightly by a stronger Euro that ended the week up 0.34p at 85.70p.</p>

Weaner Marketing Summary

w/c 19/09/21
<p>Weaner and store movements are heavily constrained by the backlog in the slaughter market. Many yards are still full and now out of sequence with refill plans. There were no prices quoted by the AHDB.</p>
