### Slaughter Pig Marketing Summary

| This week   |
|---|
| <p>This week saw improved factory reliability but was not wholly without issue. The consequence was a number of pigs rolled into this trading week. Demand remained strong, helped by the news that the Pilgrim's Ashton plant would resume 5 day processing and with an associated uplift in numbers. This indicates that there are improved sales opportunities, no doubt enhanced by barbeque demand from the general public still largely confined to home shores, and England's continued participation in the Euro 2020 football tournament. Supplies remained tight with average weights trending lower. Prices increased with a good increase in the SPP, up 1.17p at 156.99p, monthly contract contributions up 5p, and weekly contributions up 2p. Fresh meat demand was buoyant with prices 1p to 2p stronger. The cull sow market was similar pricewise. European markets remained volatile, with significant falls reported in Belgium, Holland and France reacting to the German falls of the previous week. Price quotes in sterling were enhanced slightly as the Euro ended the week up 0.17p at 85.95p.</p> |

### Weaner Marketing Summary

| w/c 20/06/21  |
|---|
| <p>Demand remained weak for any supplies outside contractual arrangements. This meant that some batches remained unplaced. There were no weaner or store pig prices issued by the AHDB.</p> |
