Slaughter Pig Marketing Summary

This week
There was little change in fortunes this week with most processors affected to some degree by staffing issues. Job vacancies number in their hundreds and some businesses are actively seeking staff from abroad. The upshot was lower kills and the backlog growing ever larger. Farms are at capacity, and average weights continue to increase. The worry is that there is no indication of improvement any time soon. Contract prices eased again, with a near penny fall in the SPP and 1p reverses in weekly contract contributions. The fresh meat market was steadier than of late and prices generally eased a penny. The cull sow market was severely affected by the downturn in the continental market – volumes were limited and prices fell 8p. European markets saw Holland lose 6 eurocents bringing it more into line with its neighbour Germany, and there were smaller falls in Ireland and Spain. Price quotes in sterling were eroded further by a weaker Euro that ended the week down 0.05p at 85.70p.

Weaner Marketing Summary
