Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

This week

Another tough week with breakdowns and inadequate allocations conspiring to give a bleak picture. Pigs continue to back up on farms and, with increasing mainstream media interest, our industry's dire predicament is now in the public domain. It is worrying therefore, that the Government seems oblivious to the problem. The market is now distorted with pigs left on farm unable to be processed, but our marketplace being satisfied by high volumes of cheap imports – encouraged by the delay until July 2022 of import checks. Prices continued to slide with weekly contract contributions back 3p and further falls in other market fundamentals. Sows had another torrid day losing another 4p on the back of poorer European markets. The Euro was little changed at 85.65p.

Weaner Marketing Summary

w/c 26/09/21

Weaner and store movements continue to be heavily constrained by the backlog in the slaughter market. Many yards are still full and now out of sequence with refill plans. The AHDB issued a 7kg weaner price at £37.53.
