| Spain                      | 112.69       | + 0.57                |

### Slaughter Pig Marketing Summary

(Ref Weekly Tribune)

#### This week

A poor week all round with many factory issues and inadequate allocations combining to paint a very bleak picture. There is no festive spirit whatsoever, and with one full week's processing left after this, little chance of any improvement. Conditions on farm are deteriorating and space is critical in many cases. Processors seem unable to conjure up more staff and there is little evidence of the much vaunted 800 temporary butchers appearing this side of Christmas. The Private aid to storage scheme has had little or no uptake and the last resort of on farm welfare slaughter is becoming a stronger reality with every day. Pricing remained under pressure adding to financial woes as feed prices took another hike. The cull sow market remained compromised by the tough export market but prices stood on for the limited numbers marketed. European markets were similar pricewise but prices in sterling were enhanced by a stronger Euro that ended the week up 0.43p at 85.05p.

### Weaner Marketing Summary

#### w/c 28/11/21

The market remains badly disrupted by the backlog in the slaughter market. This unfortunately resonates back down to the weaner producer, with many units now overstocked. There was insufficient data for the AHDB to issue any prices.
